

§ 1000.242

24 CFR Ch. IX (4-1-00 Edition)

units assisted with IHBG funds which are owned by the Indian tribe or TDHE.

§ 1000.242 When does the requirement for exemption from taxation apply to affordable housing activities?

The requirement for exemption from taxation applies only to rental and lease-purchase homeownership units assisted with IHBG funds which are owned by the Indian tribe or TDHE.

Subpart D—Allocation Formula

§ 1000.301 What is the purpose of the IHBG formula?

The IHBG formula is used to allocate equitably and fairly funds made available through NAHASDA among eligible Indian tribes. A TDHE may be a recipient on behalf of an Indian tribe.

§ 1000.302 What are the definitions applicable to the IHBG formula?

Allowable Expense Level (AEL) factor. In rental projects, AEL is the per-unit per-month dollar amount of expenses which was used to compute the amount of operating subsidy used prior to October 1, 1997 for the Low Rent units developed under the 1937 Act. The “AEL factor” is the relative difference between a local area AEL and the national weighted average for AEL.

Date of Full Availability (DOFA) means the last day of the month in which substantially all the units in a housing development are available for occupancy.

Fair Market Rent (FMR) factors are gross rent estimates; they include shelter rent plus the cost of all utilities, except telephones. HUD estimates FMRs on an annual basis for 354 metropolitan FMR areas and 2,355 non-metropolitan county FMR areas. The “FMR factor” is the relative difference between a local area FMR and the national weighted average for FMR.

Formula Annual Income. For purposes of the IHBG formula, annual income is a household’s total income as currently defined by the U.S. Census Bureau.

Formula area. (1) Formula area is the geographic area over which an Indian tribe could exercise court jurisdiction or is providing substantial housing services and, where applicable, the Indian tribe or TDHE has agreed to pro-

vide housing services pursuant to a Memorandum of Agreement with the governing entity or entities (including Indian tribes) of the area, including but not limited to:

- (i) A reservation;
- (ii) Trust land;
- (iii) Alaska Native Village Statistical Area;
- (iv) Alaska Native Claims Settlement Act Corporation Service Area;
- (v) Department of the Interior Near-Reservation Service Area;
- (vi) Former Indian Reservation Areas in Oklahoma as defined by the Census as Tribal Jurisdictional Statistical Area;
- (vii) Congressionally Mandated Service Area; and
- (viii) State legislatively defined Tribal Areas as defined by the Census as Tribal Designated Statistical Areas.

(2) For additional areas beyond those identified in the above list of eight, the Indian tribe must submit on the Formula Response Form the area that it wishes to include in its Formula Area and what previous and planned investment it has made in the area. HUD will review this submission and determine whether or not to include this area. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Indian tribes in the formula.

(3) In some cases the population data for an Indian tribe within its formula area is greater than its tribal enrollment. In general, for those cases to maintain fairness for all Indian tribes, the population data will not be allowed to exceed twice an Indian tribe’s enrolled population. However, an Indian tribe subject to this cap may receive an allocation based on more than twice its total enrollment if it can show that it is providing housing assistance to substantially more non-member Indians and Alaska Natives who are members of another Federally recognized Indian tribe than it is to members.

(4) In cases where an Indian tribe is seeking to receive an allocation more than twice its total enrollment, the tribal enrollment multiplier will be determined by the total number of Indians and Alaska Natives the Indian tribe is providing housing assistance (on July 30 of the year before funding is

sought) divided by the number of members the Indian tribe is providing housing assistance. For example, an Indian tribe which provides housing to 300 Indians and Alaska Natives, of which 100 are members, would then be able to receive an allocation for up to three times its tribal enrollment if the Indian and Alaska Native population in the area is three or more times the tribal enrollment.

Formula Median Income. For purposes of the formula median income is determined in accordance with section 567 of the Housing and Community Development Act of 1987 (42 U.S.C. 1437a note).

Formula Response Form is the form recipients use to report changes to their Formula Current Assisted stock, formula area, and other formula related information before each year's formula allocation.

Indian Housing Authority (IHA) financed means a homeownership program where title rests with the homebuyer and a security interest rests with the IHA.

Mutual Help Occupancy Agreement (MHOA) means a lease with option to purchase contract between an IHA and a homebuyer under the 1937 Act.

Overcrowded means households with more than 1.01 persons per room as defined by the U.S. Decennial Census.

Section 8 means the making of housing assistance payments to eligible families leasing existing housing pursuant to the provisions of the 1937 Act.

Section 8 unit means the contract annualized housing assistance payments (certificates, vouchers, and project based) under the Section 8 program.

Total Development Cost (TDC) is the sum of all costs for a project including all undertakings necessary for administration, planning, site acquisition, demolition, construction or equipment and financing (including payment of carrying charges) and for otherwise carrying out the development of the project, excluding off site water and sewer. Total Development Cost amounts will be based on a moderately designed house and will be determined by averaging the current construction costs as listed in not less than two nationally recognized residential construction cost indices.

Without kitchen or plumbing means, as defined by the U.S. Decennial Census, an occupied house without one or more of the following items:

- (1) Hot and cold piped water;
- (2) A flush toilet;
- (3) A bathtub or shower;
- (4) A sink with piped water;
- (5) A range or cookstove; or
- (6) A refrigerator.

§ 1000.304 May the IHBG formula be modified?

Yes, as long as any modification does not conflict with the requirements of NAHASDA.

§ 1000.306 How can the IHBG formula be modified?

(a) The IHBG formula can be modified upon development of a set of measurable and verifiable data directly related to Indian and Alaska Native housing need. Any data set developed shall be compiled with the consultation and involvement of Indian tribes and examined and/or implemented not later than 5 years from the date of issuance of these regulations and periodically thereafter.

(b) Furthermore, the IHBG formula shall be reviewed within five years to determine if subsidy is needed to operate and maintain NAHASDA units or any other changes are needed in respect to funding under the Formula Current Assisted Stock component of the formula.

(c) During the five year review of housing stock for formula purposes, the Section 8 units shall be reduced by the same percentage as the current assisted rental stock has diminished since September 30, 1999.

§ 1000.308 Who can make modifications to the IHBG formula?

HUD can make modifications in accordance with § 1000.304 and § 1000.306 provided that any changes proposed by HUD are published and made available for public comment in accordance with applicable law before their implementation.

§ 1000.310 What are the components of the IHBG formula?

The IHBG formula consists of two components:
